

REMARKS

This application is submitted as a U.S. continuation application of PCT Application No. PCT/IL02/00215.

The present amendments are based on the claim set originally filed with PCT application. The present amendments are made to place the claims in proper U.S. form and to reduce multiple dependencies. Claims 21, 24-26, 28-32, 36, 51, 52, 60, 72, 73 and 85 have been amended.

Applicants wish to point out that there is a minor typographical error on the first page of the International Search Report, in the "International Application No." box, i.e. should be "PCT/IL02/00215" (instead of "PCT/IL02/00265")

An abstract on a separate page is attached hereto.

An action on the merits is respectfully awaited.

Respectfully submitted,
Amir LOSHAKOVE, et al.
